

Feedback for RRMP Literature Review Summative

Tutor completing summative feedback: Karen Outram	Student number: 277838
Details of any extensions etc:	Submission Attempt: First submission Second submission

Criteria and weighting	Level	Comments
Knowledge and understanding of the topic/ issues under consideration (25%)	Excellent	There is clear knowledge of the subject discussed for the purposes of the Research Proposal Presentation. There is a very fluid discussion which is underpinned by relevant research and so an excellent outcome for the purposes of RPP. *Just a footnote: The title of your assignment encompasses content that would need quite a diverse breadth of study which would likely be too broad for the small-scale studies engaged in with the University of Essex and so if you are considering this for a Capstone project at that point you will likely need to narrow the context down, [but your supervisor will speak with you about this].
Use of relevant sources (10%)	Very Good	Very good use of research resources. You mostly cited through your content/slides, although there were more opportunities to cite. The presentation has a full list of references and this is appropriate regarding the summative.
Criticality (25%)	Very Good	There is a tendency to 'list' what you are discussing and so instead of segregating your discussion try to synthesise the content a little more. There is some comparison and discussion/debate occurring, however the aspects of the discussion that talk about one subject and then another tends to be descriptive. You do draw through practice and theory well with a clear understanding of academic terminology being present in your oral presentation. Overall this is a very good outcome here
Structure and Presentation (10%)	Excellent	Excellent structure and presentation regarding the power point slide presentation. The slides are set out clearly and follow the narrative of the oral presentation. The minimal slide style with text and imagery is appropriate to the summative outcome requirements. Just one small observation, set your spell check to English default to avoid Americanisms such as 'behavior' being applied.
Presentation and Communication Skills (30%)	Very Good	Just a quick note on your list of references, keep the font for your List of References the same as for the body of the

		transcript, [Arial font size 12]. Some of your audio is a little clipped as it moves from one slide to another in couple of instances. There was the odd hesitance in delivery, but for the most part your presentation style is fluid and professional.
Overall		
<u>Positives:</u> <ul style="list-style-type: none">• Some excellent outcomes• And some very good outcomes• With a very good grade overall		
<u>Points for development:</u> <ul style="list-style-type: none">• Just ensure the content that you are tackling is not too broad for a small scale study moving forward to your Capstone project for example• Fully synthesise your discussion• As this approach will enable a more critical outcome regarding your assignment
